Net sales

Consolidated net sales fell below forecasts, but sales at PARCO and Neuve A stores were steady due to a rise in temperatures from the end of July through August and last-minute demand before the consumption tax increase. Strong performance by the Entertainment Business and new Neuve A store openings also made a positive contribution.

Operating income / Operating income margin

Operating income increased, reflecting income from the operation of all three ZERO GATE stores and increased sales at Neuve A stores.

Ordinary income / Ordinary income margin

Ordinary income increased due to growth in operating income and a decrease in interest paid in non-operating income and loss.

Net income / Ratio of net income to sales

Net income increased due to a gain in sale of investment securities, growth in ordinary income, and other factors.
